Description: ISCS stands for **Intensive Social Communication Supports**. This is a program unique to New Hanover County and is designed to serve students with Autism or other related disabilities. These are students who are served in general education classes, but who require specially designed instruction in Social, Communication, Organizational Skills, Sensory and Self Advocacy Skills. ISCS uses a collaborative approach that includes a team of Occupational Therapists, Speech and Language Pathologists and Special Education Teachers to meet the social and communication needs of students, as well as any other unique needs.
